

Letter of Motivation

Introduction:

I'm writing to communicate my sincere interest in the **Master in Finance program at Hochschule Schmalkalden**. I am **Jidnyasa Rajendra Thakur**, and I'm right now pursuing a **Bachelor of Commerce in Accounting and Finance**, where I have kept an honorable **CGPA of 9.07 (German Grade: 1.46)** till my fifth semester. With an expected graduation date in June 2024, I'm anxious to add my schooling and extend my mastery in finance at your regarded college.

Through my scholarly excursion, I have reliably shown areas of strength in finance and accounting. My secondary school execution, with grades of 84.50% (German Grade: 1.72) in the twelfth class and 78.40% (German Grade: 2.00) in the tenth class, mirrors my devotion and difficult work. I have supplemented my theoretical knowledge by earning certification in MS-CIT and Tally ERP, which have outfitted me with fundamental specialized capabilities expected in the finance industry. I also appeared for the **IELTS Exam** and scored an overall band score of 6.5.

During my internship at M/S Beena Finvest in Navi Mumbai, India, from January to February 2024, I had the amazing chance to connect with clients in regards to shares (Demat activities) and common assets, process KYC archives, locally available clients, and help with different monetary errands. This active experience has improved my viable comprehension of money as well as sharpened my correspondence and client executive abilities. It hardened my enthusiasm for the finance sector and confirmed my aspiration to pursue a career in this field.

Why Masters in Finance:

The Master in Finance program at Hochschule Schmalkalden is the ideal fit for my scholar and expert objectives. I'm especially attracted to the program's exhaustive educational plan, which covers a great many subjects including financial markets, investment analysis, corporate finance, and risk management. The accentuation of both theoretical information and viable application lines up with my learning inclinations and professional desires. Additionally, the college's cutting-edge offices, experienced personnel, and solid industry associations give an optimal climate to cutting-edge learning and expert turn of events.

Why Germany:

Germany, famous for its solid economy and strong financial area, offers a novel climate for concentrating on finance. The country's focus on great training and its very organized advanced education framework make it an alluring objective for worldwide understudies. Moreover, Germany's essential situation in the European market gives significant openness to worldwide monetary practices and patterns, which is fundamental for a far-reaching comprehension of the money business.

Why Hochschule Schmalkalden

Picking Hochschule Schmalkalden for my postgraduate investigations is a choice driven by the college's standing for scholarly greatness and its steady learning climate. The global direction of the program joined with the potential chance to gain from and interface with a different understudy body, is especially engaging. I'm certain that learning at Hochschule Schmalkalden will furnish me with the vital information, abilities, and organization to prevail in the worldwide money industry.

I'm anxious to bring my scholarly constancy, proficient experience, and excitement for money to Hochschule Schmalkalden and contribute decidedly to the university's local area. Much obliged to you for thinking about my application.

Yours sincerely,
Jidnyasa Rajendra Thakur
