I am **Abhishek Pramodkumar Jain** from Maharashtra, India. I am writing to convey my ardent interest in embarking on a **Master of Finance at FH Schmalkalden University of Applied Sciences in Germany**.

In terms of academics, I completed my **Bachelor of Commerce in Accounting and Finance** at Somaiya Vidyavihar University in India, graduating in 2023 with a **German equivalent grade of 1.20**. Additionally, I earned a **minor degree in Financial Markets, achieving a German score of 1.40.** My undergraduate coursework covered Advanced Accounting, Indirect Tax, Financial Management, and Corporate Accounting. The minor degree included topics such as Income Securities, Technical Analysis, Security Analysis, and Portfolio Management. I appeared for the **IELTS Exam** and scored an overall band score of 6.5.

Additionally, I honed my skills in Project Management and Big Data Analytics, essential for tackling complex projects in the technology sector. As part of my Bachelor Project, titled "CAR RENTAL SYSTEM" conducted at Shah and Anchor Kutchhi Engineering College, Mumbai, India, I addressed the increasing demand for car rentals by developing an online platform.

With my studies, I was an **Intern at TM Gosher & Associates**, where I learned to prepare Financial Statement for the Company and file GST Returns. After finishing my college studies, I began working as an **Associate in the financial department of Romaniya Textiles**. In this role, I was responsible for managing monthly account reconciliation, processing, and ensuring accuracy and compliance with accounting requirements.

My desire to pursue a **Master's degree in Finance** stems from my profound interest in the dynamic and diversified world of finance. Having fortified my knowledge base in financial markets through academic rigor and pragmatic exposure. The allure of mastering modules encompassing Financial Analysis, Investment Management, and Corporate Beyond refining my analytical acumen and decision-making prowess, a Master's in Finance promises to furnish me with the requisite expertise essential for excelling in roles centered around financial planning, investment analysis, and strategic financial management.

My decision to pursue higher education in **Germany** involves a lot of facts. As we know, Germany has a strong reputation for providing the best quality education with many of its universities ranked among the top universities worldwide. Germany is also known for its technological advancement with research and innovation. The country offers an excellent environment for international students. It has a rich culture and offers a high standard of living.

I chose **FH Schmalkalden University of Applied Sciences** for my Master's in Finance because of its recognized reputation for academic brilliance, rich program, and commitment to creating a conducive learning environment. The university's holistic approach to financial education, along with an emphasis on practical applications and business relevance, perfectly coincides with my future goals. The innovative and forward-thinking environment at FH Schmalkalden University of Applied Sciences, together with the mentoring of prominent faculty members, make it an ideal university for me.

Shortly, I want to work as an **investment banker or portfolio manager** for a reputable organization. However, my objectives reach far beyond the horizon of employment. In the long run, I hope to explore numerous distinct fields and areas of innovation, contributing to the advancement of the finance industry and contributing to the economic landscape of my home country.

I am eager to embark on this transformative journey at FH Schmalkalden University of Applied Sciences confident that it will catalyze these aspirations into reality.

Regards,

Abhishek Pramodkumar Jain
