

Letter of Motivation

Introduction

My name is **Arpit, Parashar**, and this letter is to convey my interest in studying for a **Master of Science in User Experience Management & Design** at **PFH** of the **Private University of Applied Science**. Having studied Computer Science and Engineering and having practical work experience, being a technology and design enthusiast, I wish to extend my knowledge in the user experience (UX) sphere to further a career in designing user-oriented digital products.

Academic Background, Internship, and Technical Skills

I have completed with **Bachelor of Technology in Computer Science and Engineering** from **Maharshi Dayanand University**. My undergraduate score was **72.83% (German grade 2.36)**, and I learned topics like **Database Structure & Algorithms, Computer Networks, Network Security & Cryptography**. Before my bachelor's degree, I did a Diploma in Electrical Engineering from Haryana State Board of Technical Education. This diploma gave me good basics in subjects like fundamentals of electrical and electronics engineering and digital electronics which are important for computer science also. Similarly, I proceeded to pass my All India Secondary School Examination (10th Class) under the Central Board of Secondary Education (CBSE) and acquired some basic mastery in subjects like Mathematics, Science, and Information Technology. As the **Flutter Associate Developer Intern** in **Nijomee Technologies Pvt. Ltd**, I got hands-on experience in the field of mobile development, problem-solving, and of course teamwork abilities. Moreover, I have also worked on **Programming languages** such as **Python, C, C++, JAVA**, and **Microsoft Office**. Alongside my technical skills, my **IELTS score** of **6.5 (CEFR Level: B2)**.

Why Master of Science in User Experience Management & Design?

The **Master of Science in User Experience Management & Design** suits my needs since the program provides knowledge of the UX design technical aspects, as well as the elements that involve the users. This aligns with my career aspirations. It also tackles more general courses that are important in designing systems for the user like the user experience assessment, interaction design, and psychology in design courses that give a broad basis to come up with positive user-centered digital systems. I am eager to master modules such as UX Design Process, Conception and Prototyping, and Digital Business Modeling that will help me fine-tune in creating perfect, integrated, and creative solutions. Studying HCI, persuasive design, and analysis of data will enable me to assess the behaviour of the users and provide the best interface. The realities associated with this course; International management, CRM, and Data security will also help prepare me for more leadership positions on an international level. Ideally, I would like to work as a UX designer or as a consultant for a new product, helping to design usable and innovative products that would meet market demand. This program will equip me with real-life experience in the ever-expanding field of UX design to provide me with that competitive edge.

Why Germany?

Germany should therefore be considered for my higher education due to its quality in producing education, focus on skills and innovation as well as research-based learning. This is a country with an advanced technological base, something it achieved in the areas of design and engineering. The universities of **Germany** offer a great learning climate to international students, besides offering quality education and research programs. Further, **Germany's** technology and digital markets are rapidly growing, and this creates a huge demand for UX practitioners. The multicultural environment and the global perspective of the education system in **Germany** added to my interest in doing my studies; besides I would like to work with students and other professionals from all over the world. Furthermore, **Germany** boasts a robust economy and has experienced a surge in start-ups, making it a perfect environment to begin my working experience.

Why PFH?

The specific criteria that led to the selection of **PFH** include the following: the university is oriented on applied sciences and the reputation of the university in the sphere of management and design. Through **PFH**, a **Master's** program in **User Experience Management & Design**, the curriculum is designed to ensure that learners and students are given equal doses of theory and practice. From the collaborations with various industries, the university will provide me with potential contacts to take part in projects and internships – which is vital in the field. Thanks to the advanced equipment of **PFH** and the multidisciplinary nature of the program, this institution will be an ideal place to gain UX design experience. In addition, the faculty at the **PFH** will be useful for me since they are experts both in design and technology and will help me to complete my tasks in this competitive sphere. I am also very much encouraged by a well-developed alumni network at the university, which is instrumental in defining my future career.

Conclusion

Therefore, I am certain that I would be a good fit for the **Master of Science in User Experience Management & Design** at **PFH** due to my academic background, technical skills, and passion for UX design. I expect to foster and learn from the chemistry of your university from my experiences. Thank you for considering my application. I am excited about the opportunity to further my education and grow as a professional at **PFH**.

Yours sincerely,

Arpit, Parashar
