

Letter of Motivation

Introduction

My name is **Arpit, Parashar** and I would like to state my interest in undertaking a **Master of Science in Computer Science** at **Technische Universität Hamburg**. Given the fact that I graduated from Computer Science & Engineering, and I have practical experience as a Flutter Associate Developer Intern, I am willing to enhance my knowledge and skills in the sphere. This program is relevant to my personal and professional goals, and I am eager to make substantial input and gain a wealth of experience at your esteemed institution.

Academic Background, Internship, and Technical Skills

I have completed with **Bachelor of Technology in Computer Science and Engineering** from **Maharshi Dayanand University**. My undergraduate score was **72.83% (German grade 2.36)**, and I learned topics like **Database Structure & Algorithms, Computer Networks, Network Security & Cryptography**. Before my bachelor's degree, I did a Diploma in Electrical Engineering from Haryana State Board of Technical Education. This diploma gave me good basics in subjects like fundamentals of electrical and electronics engineering and digital electronics which are important for computer science also. Similarly, I proceeded to pass my All India Secondary School Examination (10th Class) under the Central Board of Secondary Education (CBSE) and acquired some basic mastery in subjects like Mathematics, Science, and Information Technology. As the **Flutter Associate Developer Intern** in **Nijomee Technologies Pvt. Ltd**, I got hands-on experience in the field of mobile development, problem-solving, and of course teamwork abilities. Moreover, I have also worked on **Programming languages** such as **Python, C, C++, JAVA, and Microsoft Office**. Alongside my technical skills, my **IELTS** score of **6.5 (CEFR Level: B2)**.

Why Master of Science in Computer Science?

Thus, the **Master of Science in Computer Science** is the perfect course for me because of the following reasons: The course has a well-prepared curriculum that corresponds to my previous education. From this course, I shall be able to focus on additional fields like software development, data science, or network security as important for future technologies. The focus of the program on research and the application of computational skills means that completing the program will prepare me for computation challenges. In a world that is rapidly connecting to the World Wide Web, knowledge within the field of computer science will enable me to augment fields such as artificial intelligence and cybersecurity. Two of the specializations that truly excite me in this program are Machine learning and Cloud Computing. By the end of the course, I seek to achieve expertise in delivering large-scale solutions to present-day technological problems. Upon finishing this program, I will be in a position to practice research and innovation.

Why Germany?

Germany has been famed for providing high-quality education, especially in areas such as engineering and computer science. This focus on research and innovation makes the country a perfect environment to pursue my academic aspirations. German universities enjoy highly technological equipment and industrial experience in their academic programs, making students learn a lot. The diversity in the German learning environment is ideal for cognitive development, and student's confluent different nationalities work in groups to solve problems. Additionally, **Germany's** economy stands tall in the European Union and the trends in technological innovation provide the right environment for creating a career in computer science.

Why Technische Universität Hamburg?

Technische Universität Hamburg is one of the institutions that caught my interest basically because of its focus on research and its interest in innovation in computer science. The opportunity to work in the state-of-the-art laboratory, together with other successful students and outstanding professors, reaffirms that I will be able to receive the best education at the university. The interdisciplinary orientation of **TU Hamburg** will enable me to apply my knowledge in different fields and will be a positive aspect of my personality as a computer scientist. The strong connection between the academic side and the tech industry will give me practical experience and equip me with an understanding of what to expect in that sector. In addition, studying at the University of Hamburg places me within one of Europe's greatest technology and innovation, increasing my employment prospects. I believe that studying at **TU Hamburg** will increase my capability to achieve academic success and my professional dreams.

Conclusion

Therefore, I am looking forward to making the best out of my academic knowledge, technical skills, and practical experience and sharing them with **Technische Universität Hamburg**. I am certain that the **Master of Science in Computer Science** shall present me with the best opportunity to learn and develop professionally as well as respond to the deficit in the area of computer science. I would like the chance to be a member of your esteemed university.

Thank you for considering my application.

Sincerely,
Arpit, Parashar
