

Letter of Motivation

Introduction

My name is **Arpit, Parashar** and I wish to apply for a **Master of Science in Computer Science** at the **University of Bayreuth**. Having a great base in Computer Science and Engineering, rich technical anchorage, and the enthusiasm to learn continuously; I seek to deepen my knowledge and add to the Computer Science by joining this program.

Academic Background, Internship, and Technical Skills

I have completed with **Bachelor of Technology in Computer Science and Engineering** from **Maharshi Dayanand University**. My undergraduate score was **72.83% (German grade 2.36)**, and I learned topics like **Database Structure & Algorithms, Computer Networks, Network Security & Cryptography**. Before my bachelor's degree, I did a Diploma in Electrical Engineering from Haryana State Board of Technical Education. This diploma gave me good basics in subjects like fundamentals of electrical and electronics engineering and digital electronics which are important for computer science also. Similarly, I proceeded to pass my All India Secondary School Examination (10th Class) under the Central Board of Secondary Education (CBSE) and acquired some basic mastery in subjects like Mathematics, Science, and Information Technology. As the **Flutter Associate Developer Intern** in **Nijomee Technologies Pvt. Ltd**, I got hands-on experience in the field of mobile development, problem-solving, and of course teamwork abilities. Moreover, I have also worked on **Programming languages** such as **Python, C, C++, JAVA**, and **Microsoft Office**. Alongside my technical skills, my IELTS score of **6.5 (CEFR Level: B2)**.

Why Master of Science in Computer Science?

The **Master of Science in Computer Science** at the **University of Bayreuth** has a well-developed course structure and fits with my academic goals. In this way, the existence of such an opportunity to pick up the proportion of the theoretical foundation and application of viewed material makes the evolutionary growth of competence in such Sphere's sections as AI and software systems, the closest in education to the undergraduate. The course will allow me to further solidify my knowledge of algorithms and data analysis as a course that focuses on the development of formal, algorithmic, and mathematical competencies. Such skills can be applied in the structured project phase of multi-disciplinary research opportunities. The long-term vision of a career-spanning period in developing transformational solutions in the field of AI is a perfect set goal for this. Additionally, the program's flexibility in choosing areas of research and projects would allow them to consider a contemporary field, say, machine learning or cybersecurity. The program gives me the groundwork to lead teams take on challenging projects, and pave the way to enter demanding fields in AI and as an industry or research professional globally.

Why Germany?

The reason why **Germany** is the best place for my higher education is the world-renowned reputation of **Germany** for engineering and technological research. The combination of academic excellence along practical industry exposure that is provided by the country is exactly what I need to grow as a computer scientist. **Germany** also has a strong economy, as well as a robust IT sector, making it a very good place to do internships, collaborate, and work. From research-driven education, the country's focus will help me to work on projects and contribute to global technological advancements. Germany's focus on the environment and cutting-edge technology is inspiring, which I hope will help my academic and professional journey in great proportion. Additionally, the rich cultural diversity and the vibrant student community will add another layer to my global international experience, an element that will enrich my personal and academic lives.

Why the University of Bayreuth?

I find this strong focus on interdisciplinary research and innovation makes the **University of Bayreuth** particularly appealing to me. I will get to enjoy working with facilities that the university's Department of Computer Science is known for, including being based out of state-of-the-art facilities and working with industry leaders, so that I stay updated with the latest trends in the tech world. I am also living by the university's values of pushing for sustainability and ethics in computing. Additionally, the prospect of working with the same faculty, some of whom are the finest in the world regarding artificial intelligence and software engineering, is very attractive. Having the strong international network of the university allows me to be exposed to and gain career advantage from well-reputed tech companies around the world. Finally, the friendly and encouraging academic atmosphere of the **University of Bayreuth** will allow me to flourish both inside and out.

Conclusion

Therefore, I believe that the program of the **Master of Science in Computer Science** at the **University of Bayreuth** will help me to reach my academic and career aspirations completely. Perhaps, participation in research studies will enable me to enhance the university research activities as well as work with fellow students and instructors. I am eager to join your great institution and contribute my best towards the growth of **Computer Science**.

Thank you for considering my application. I am looking forward to your positive response.

Sincerely,
Arpit, Parashar
