

## Letter of Motivation

### Introduction

I am **Varshini, Ramapuram Nayaki**, and here I would like to convey that I am highly interested in applying for the **Master of Science in Global Logistics and Supply Chain Management** at the **Berlin School of Business and Innovation (BSBI)**. I have a Bachelor of Business Administration (Honors) from Reva University, India where I spent time studying management principles and have real experience applying it to business development and entrepreneurship. I am willing to learn more in this dynamic field of global logistics and supply chain management through your prestigious program.

### Academic, Professional, Project, and Extra- Curricular

I earned my **Bachelor of Business Administration (Honors)** from Reva University in Bangalore, India with a **cumulative grade point average of 8.07(German grade:2.1)**. In my Undergraduate degree program, I was exposed to various courses including Management Principles, Business Statistics, Human Resource Management and Macro Economics amongst others. Before my undergraduate education, I completed my Intermediate Public Examination (**12th class**) under the Board of Intermediate Education, Andhra Pradesh, scoring a **CGPA of 7.84 (German grade equivalent: 2.0)**, and from secondary school, the Secondary School Certificate **10th class**, Board of Secondary education Andhra Pradesh, **GPA of 9.7 (equivalent to German grade: 1.1)**. I also took an **internship** position in the capacity of **Business Development Intern at Mach IT Private Limited, Bengaluru**. I assisted in a project called ‘**A Study on the Idea of an EdTech Start-Up**’ where I was required to research the market and draw strategies from the market trends and practices of the existing competitor companies in order to develop ideas for improving educational technology services. In my academic project at Reva University, I also prepared a detailed study on “**Idea of an EdTech Start-Up**” which highlighted the role of technology in the education-based learning process. On this project, I have been able to practice the research, analytical, and presentation skills in the course. Other special accomplishments include **extra activities** for which I have also participated in my learning process. While participating in **Revthsava’23** I stood **third** in the “**Best Entrepreneur**” competition and **second** in the “**Marketing Competition**” which proves my leadership and strategic thinking abilities. I also contributed my efforts to some **community service programs** at **Reva University**. After that, I took **IELTS** and got **6.5** on average, which also proved my efficiency in the **English language**. Also, I Completed **15 years** of Education in the **English Language**.

### Why M.Sc. in Global Logistics and Supply Chain Management?

The **Master of Science in Global Logistics and Supply Chain Management** offered by the **University of Roehampton London** correctly suits my potential occupation. It is an innovative one-stop logistics course that extends your knowledge of logistics, procurement, and supply chain management through strategic and tactical management approaches. What interests me about it is that many of these courses are either case and/or project-based and will offer me problem-solving knowledge on how to simplify complicated processes and to how manage international supply networks. The curriculum of the program also covers important concepts in finance making the decision involvement in the supply chain much more effective. Moreover, this master’s program creates logistics and supply chain managers who can provide critical information about cost control and sourcing strategies. This emphasis will ensure that I understand many roles that exist in supply chains and hence contribute to the best of my effort in a global environment. Finally, this program will enable me to grow to the capacity to embrace the challenges of a competitive market and aspire to managerial positions in international organizations.

### Why Germany?

**Germany** has a good reputation for offering quality engineering, technology, and industrial processes, therefore, it is the right place to learn supply chain management. The excellent logistic connection and the geographical position of the country in the center of Europe are the best. **Germany** boasts of a high number of international organizations that help shape the supply chain industry thus affording practical experience. The fact that the country encourages research and innovation will guarantee that I conduct research and practice supply chain management from the most developed practices. The layout for career progression is well-developed since **Germany** delivers good economic prospects and strong industrial collaborations after graduation programs. Furthermore, living and working in **Germany** which is a multicultural country I will be able to network with a cross-section of the world’s population.

### Why BSBI?

I am very interested in enrolling in **BSBI** since it offers a special blend of education in approach and bears much focus on practice. The industrial partnerships facilitate students to be on par with the industry and challenges are being taken into consideration. The goals of entrepreneurship and leadership inherent in the work of **BSBI** correlate with my short and long-term professional goals of managing extensive supply chain operations. The dream to study from peers in Berlin, a world centre of commerce and trade will be of benefit to me. I believe that experience in working for an international organization like **BSBI** and being exposed to a multicultural staff as well as students will help me develop multi-team working. The opportunities offered by the university in terms of contacts, both internally, present within our alumni body and externally, connected to the industry, will be useful in enhancing my career in the international logistics & supply chain segment.

### Conclusion

**Overall**, I am convinced that the **Master of Science in Global Logistics and Supply Chain Management** at **BSBI** would enable me to acquire the necessary knowledge and skills in the area. I look forward to bringing my variety of background and experiences to the program, and to learning from industry leaders and my colleagues. And I am sure that **BSBI’s** program will get me exactly where I want to be in terms of my academic and professional pathway.

**Thank you for considering my application.**

**Yours sincerely,**

**Varshini, Ramapuram Nayaki**
