

Letter of Motivation

Dear Admissions Committee,

My name is **Siddhi Nitin, Naik** and I hold a Bachelor of Engineering in Mechanical Engineering from Savitribai Phule Pune University, India. I am writing to convey my keen interest in the **Master's in Computer Science program at the University of Freiburg**. With a good academic foundation, extensive work experience, and a clear vision for my future, I am certain that this program is the best fit for my objectives and academic goals.

Academic and Professional Background: I finished my tenth grade in 2018 and my twelve grade in 2020 with **86.5% (German Grade: 1.60) and 83.85% (German Grade - 1.75) scores**. At Savitribai Phule Pune University, where I have completed my **Bachelor of Engineering**, I have a **CGPA of 8.88 (equal to a German mark of 1.56)**. During my academic path, I worked on **web development projects interning at CollegeRanker** in India. This encounter inspired me to study more about data science and technology since it piqued my curiosity in the fields. I have also finished other technical classes and seminars, including **"Business Intelligence Using BI"** from Skill Nation and **"Complete Python 2024 for Absolute Beginners"** from Udemy. Having completed the **IELTS with an overall band score of 7.0**, I can be sure I am ready for this academic path.

I have also taken other classes, including **"TCS iON Career Edge - Young Professional course"** from TCS and **"Master the Coding Interview: Data Structures + Algorithms"** from Udemy. These encounters have given me necessary practical knowledge and abilities for my subject of study. Developing a deep learning-based speech-to-text system for my bachelor project, **"Lip Reading using Machine Learning: Enhancing Speech Recognition and Accessibility,"** sharpened my technical abilities and stoked my passion in computer science.

Why I Choose This Course: The Master's in Computer Science program connects with my academic and career ambitions. My interest in computer science was started during my high school years when I first encountered programming and data structures. This fascination increased during my undergraduate studies, where I researched subjects like Blockchain Technology and Deep Learning. I am particularly excited about modules like as Advanced Algorithms, Machine Learning, and Data Science provided in this program. These disciplines are necessary for comprehending the complexity of computer science and finding inventive solutions. The curriculum gives a wonderful platform for enhancing my abilities and pursuing a satisfying career in the technology business.

Why I Choose This University: The University of Freiburg's esteemed staff, excellent facilities, and commitment to academic quality make it the ideal choice for obtaining my master's degree in Computer Science. The university is regarded among the top universities globally, and its focus on research-driven teaching approaches is noteworthy. With a student body of nearly 24,000, the university provides a vibrant and active academic community. The opportunity to connect with industry professionals and engage in internships will provide vital practical experience and networking possibilities in the field of computer science. Additionally, the university's magnificent campus and its position in the lovely city of Freiburg, noted for its rich culture and history, make it a desirable destination to study and live.

Why I Chose to Study in Germany: I wish to apply in Germany because of its renowned reputation as a center for engineering excellence and innovation. I want to stay in Germany because the sector of education here is significantly better compared to other places. I wish to enjoy the fantastic exposure, diversity, and rich German culture. I wish to pick Germany for my master's degree because it offers cutting-edge education and multiple career chances in the engineering and technology industries. I believe that studying in Germany will help me grow professionally as well as personally. I am attracted by Germany's history, culture, and technological developments, which have largely impacted my decision to study here.

Aspirations & Objectives: Upon completing my Master's in Computer Science, I hope to step into a leadership role, employing advanced analysis to guide crucial decisions and encourage creativity. My goal is to utilize the latest methods to tackle complex technical problems, helping firms expand and stay ahead in the technology field. I aim to keep studying and adapting to new tech developments, staying at the forefront of the computer science revolution. Ultimately, I picture myself managing projects that leverage computer science technology to make the world a better place, both in business and beyond.

Thank you for considering my application. I look forward to starting my new chapter at the University of Freiburg.

Sincerely,
Siddhi Nitin, Naik
