

Motivation Letter

Applying for **Heidelberg University's Master of Science in Data and Computer Science** excites me; my name is **Anitta, Thomas**. Having a strong academic foundation in computer science and engineering and having useful experience from projects and internships, I am ready to grow in this area. This esteemed curriculum will surely enable me to reach both my intellectual and career objectives.

Currently finishing my **Bachelor of Technology in Computer Science and Engineering** from APJ Abdul Kalam Technological University, Kerala, India, I have a commendable **CGPA of 7.87 (German Grade: 2.4.)**. Subjects such Engineering Physics, Basics of Civil and Mechanical Engineering, Object-Oriented Programming Using JAVA, Graph Theory, Computer Networks, Computer Graphics and Image Processing, and Distributed Computing have added richness to my academic path. Also I finished a project called "**Mobile Application and Algorithm Development for Expense Splitting**". In my academics, I have always done rather well; my 10th-grade tests came out at **89.4%** and my 12th-grade tests at **88.6%**.

Having followed my academic path, internships have given me real-world experience. Whereas my previous **internship at BDS Technology Pvt. LTD** involved marketing a Holiday Automation Booking system, my newest **internship at Tata Elxsi Limited** concentrated on Android OTT app development. These internships have given me in-field technological practical experience and insightful analysis. I have also shown my language ability by completing the **IELTS test with a 7.5 CEFR level—C1 overall score**.

Combining personal and academic experiences, my passion in data and computer science results. During my internship at Tata Elxsi Limited, I came to see how powerfully data-driven solutions might change sectors and enhance quality of living. Together with my academic background, this experience has driven my ambition to focus in this area. Comprising courses like Data Science, Machine Learning, and Distributed Computing, the Master's degree at Heidelberg University presents a complete curriculum. These courses will equip me with the technical knowledge and problem-solving ability required to succeed in the sector. The chance to work on actual projects and partner with businesses excites me especially as it will equip me for a competitive employment market.

Germany's stellar reputation in engineering and technology education drives me to apply there. Since the field of education in Germany is much better, I wish to remain here. I feel that seeing Germany's rich culture and variety will help me to widen my viewpoint and advance personally. The great level of education, research possibilities, and creative environment of Germany appeal to me as my master's program location. Through the exposure and events I will have while studying in Germany, I hope to develop personally as well as professionally. Germany's energetic culture, which is renowned for its rich history, art, and technological innovations, is something I want to really experience.

Heidelberg University ranks among the greatest universities in the world, hence I would want to apply there. Heidelberg University comes in at 64th worldwide based on the QS World University Rankings. The university's facilities, teachers, and lovely campus situated in the old city of Heidelberg really excite me. My choice has been affected by the good experiences of friends who have attended Heidelberg University. The research centers and teachers connected to the Data and Computer Science curriculum especially pique my curiosity. Studying in Heidelberg will also let me investigate the city's attractions including the Philosopher's Walk and the Heidelberg Castle. The local employment scene is very bright; numerous businesses in the city are hiring graduates of the Data and Computer Science programs. Studying at Heidelberg University offers great intellectual, personal, and professional advantages; I am therefore excited to be a part of this prestigious university.

After finishing the Master of Data and Computer Science, I want to be employed in positions **such Data Analyst, Machine Learning Engineer, or Data Scientist**. Want to work, where the employment market is advantageous and the demand for IT experts is great, really interests me. Heidelberg University's program will provide me the tools I need to succeed in these positions and help to generate creative ideas in other sectors. I have no doubt that this degree will enable me to reach my long-term professional objectives and open me interesting employment chances.

Finally, I think the Master of Science in Data and Computer Science at Heidelberg University will provide me with the background and skills required to reach my professional objectives. Being a part of the active community of this esteemed university and helping it to grow academically excites me. I value your giving my application some thought.

Sincerely,
Anitta, Thomas
