

Motivation Letter

My name is **Arijeet, Dutta**. Even though I graduated with a Bachelor of Technology in Electrical Engineering, I have always been somewhat fascinated by digital technology and management. Driven by a wish to work in a fast changing and powerful field, I am writing to express my great interest in the **Master's in Digital Technologies and Management program at FOM University**.

Having graduated from the National Institute of Technology, Raipur, India, with an excellent **score of 8.90 CPI (German Grade: 1.6)**, I hold **Bachelor of Technology in Electrical Engineering**. I studied basic electrical engineering, computer programming, electrical measurement and instrumentation, electrical circuit and network analysis, control system engineering, high voltage engineering, and smart grid technology undergradually. I passed my Senior School Certificate Examination (Class 12th) with a **score of 94.2% (German Grade: 1.2)** and my All India Secondary School Examination (Class 10th) with a score of **95.8% (German Grade: 1.1)**.

Over my academic career, I have attended numerous seminars and training courses including a workshop on **artificial intelligence with Deep Learning run** by Learn& Build powered by TechieNest Pvt. LTD. and training in **Catia & Ansys** from Skill Vertex. Currently employed as a **Business Technology Solutions Associate at ZS Associates India Private Limited**, my professional experience spans an ongoing position. My internships have given me a variety of experiences including **designing a low-cost compact electric car** at IIT Patna, working on **ophthalmic devices for eye-disease detection** at **NETR AI PVT. LTD**, and doing industrial robots at Mukkudal robots. Along with classes in **Robotics, Introduction to the Internet of Things and Embedded Systems, and Rocket Propulsion**, I finished technical certifications like the ThoughtSpot Professional Certification. With a **CEFR Level of C1, my IELTS score of 7.0** reflects my English competency.

My great enthusiasm for the MSc. Digital Technologies and Management at FOM University has been driven by past learning and experiences. During my internship at ZS Associates, I came to see the enormous influence digital technology may have on our lives as well as the corporate environment. Projects for my Bachelor's degree, such "Development of Low-Cost Compact Electric Vehicle," have stoked my passion for original problem-solving for practical difficulties. Because they will provide me the technical knowledge and abilities required to thrive in this sector, modules like "Digital Business Models" and "IT Project Management" thrill me. This degree will enable me to develop both personally and professionally, so enabling me to add to the active field of digital technology and management.

FOM University's academic excellence and pragmatic approach inspired me to work toward this Master's degree. The university's diverse approach to teaching and great reputation in engineering and technology fit my goal for a thorough awareness of the worldwide digital scene. Furthermore, FOM's varied student body and location in a thriving metropolis offer a great setting for networking, learning, and developing my global communication abilities. Also excites me the chance to engage with prestigious research centers and instructors linked to the program.

Germany's great emphasis on research and development—especially in technology and engineering—allows me to desire to study there. I think German education is far more of quality. I wish to really experience the rich German culture, variety, and special exposure it presents. Germany was my pick for my Master's degree since it offers a unique chance to be exposed to diverse markets and civilizations, therefore enhancing my awareness of the worldwide digital scene. Studying in Germany will assist me to develop personally and professionally. I wish to fully experience a nation renowned for its commitment to technical development, research, and artistic expression.

Having finished my Master's degree, I hope to be employed in positions such **digital transformation specialist, IT project manager, or digital technology consultant**. I think the MSc. Digital Technologies and Management program at FOM University will provide me with the tools and knowledge I need to succeed in these roles. The program's emphasis on interpersonal as well as technical abilities will equip me for a prosperous future in management and digital technology. Working with businesses leading the way in digital innovation excites me since I can help to create fresh ideas and field-of- expertise advances.

At last, I am sure that the MSc. Digital Technologies and Management program offered by FOM University is exactly fit for my academic and career goals. My ideal candidate for this program is me since of my solid academic background, real-world experience, and interest of digital technology. Attending your prestigious university and helping the field of digital technology and management would be much awaited. I value your giving my application some thought.

With sincerity,
Arijeet, Dutta
