

Motivation Letter

Writing this letter to show my interest in studying for the **Master of Science in Information Technology Management at BSBI**, I am **Uppendra Singh, Negi**. The concept of studying at your prestigious university intrigues me since this program of study exactly fits my academic background and career goals.

Graphic Era Hill University, India, where I finished my **Bachelor in Computer Applications**, with a **CGPA of 8.47—a German mark of 1.9**. Studying, I covered topics including Programming Concepts utilizing C Language, Data Structures and File Organization, Java Programming, Database Management System, Cryptography, and Computer Graphics. These classes greatly changed my analytical perspective. I have also become somewhat proficient in languages including Python, Java, C, and C++ programming. Having spent 15 years learning English has helped me to improve my communication abilities even more.

At **LTimindtree Limited, India**, I am presently an **Engineer in Cloud & Infra Services**. Installation, configuration, and maintain M365, ITIL, WSUS, MECM, application packaging, OKTA IAM, and patching among other things. I also have background in database administration. These positions have given me useful expertise and the capacity to properly spearhead projects. Further confirming my expertise was **the LTIMindtree Certified Cloud - IT Infrastructure, Cybersecurity Services Professional credential**. I also cleared an assessment on **Expert Java** compliant with competency criteria created by NASSCOM, the IT-ITeS Sector Skills Council.

The Master of Science in Information Technology Management program at BSBI appeals especially to me since it provides a thorough course in line with my professional objectives. The program's emphasis on offering both technical knowledge and management skills exactly what I need to progress in my job. During my undergraduate studies, particularly while working on projects connected to Java Programming and Database Management Systems, my curiosity in this area was piqued. Furthermore, my present position at LTIMindtree has provided me actual knowledge in cloud and infrastructure technologies, therefore confirming my wish to focus in IT management.

"Strategic IT Management," which covers fundamental subjects such IT governance, risk management, and compliance, one particular module that interests me is The "Digital Business Transformation" module will also be much sought after since it will offer ideas on how companies may use technology to spur innovation and expansion. These courses will provide me the tools I need to design effective IT plans and oversee digital revolutions inside companies.

Germany's outstanding educational quality and strong research and development emphasis inspire me to study there. Since the field education in Germany is significantly better, I want to remain here. Experiencing the great variety of German culture will enable me to develop personally and professionally. Germany offers lots of chances for internships and job in the IT industry; hence I decided to major there. Studying in Germany will expose me to cosmopolitan surroundings and provide me opportunity to grow from some of the greatest brains in the field. I wish to fully experience German way of life and benefit from the nation's steady economy and innovative attitude.

Applying to BSBI appeals to me since it presents a special fusion of academic excellence and practical expertise. Modern facilities and a varied student body help BSBI to create the perfect setting for learning and personal development. The campus of BSBI is in a dynamic metropolis with lots of chances for professional development and networking; the faculty members there are authorities in their domains. Friends who have attended BSBI have given me positive comments, and their experiences have really shaped my choice. Furthermore, the university's alliances with other sectors will give me great exposure and chances for career placement and internships.

After finishing the MSc in Information Technology Management, I want to be employed in positions such **digital transformation consultant, project manager, or IT manager**. I think the knowledge and abilities this program will equip me for these roles and enable me to significantly influence the field of IT administration. Want to work, where the employment market is well-developed and IT professionals are highly sought after, particularly interests me. The BSBI program will provide me with both technical and interpersonal abilities, therefore strengthening me as a professional equipped to meet the demands of the IT sector.

I have no doubt that the Master of Science in Information Technology Management degree from BSBI will provide me with the means to reach my career objectives. The vibrant academic community at BSBI excites me to participate in and grow from. I value your giving my application some thought.

I value that you are giving my application some thought.

Sincerely,
Uppendra Singh, Negi
