

Statement of Purpose

Dear Admissions Committee,

I'm **Uppendra Singh, Negi** and writing to say how very interested I am in **FAU Erlangen's Master of Science in Data Science program**. From my academic background and professional experience, data analysis, programming, and business operations captivate me. The Data Science program will enable me to fulfill my dream of leading in data-driven business intelligence and decision-making.

Graphic Era Hill University, India, where I finished my **Bachelor in Computer Applications**, with a **CGPA of 8.47—a German mark of 1.9**. Studying, I covered topics including Programming Concepts utilizing C Language, Data Structures and File Organization, Java Programming, Database Management System, Cryptography, and Computer Graphics. These classes greatly changed my analytical perspective. I have also become somewhat proficient in languages including Python, Java, C, and C++ programming. Having spent 15 years learning English has helped me to improve my communication abilities even more.

At **LTIMindtree Limited, India**, I am presently an **Engineer in Cloud & Infra Services**. Installation, configuration, and maintain M365, ITIL, WSUS, MECM, application packaging, OKTA IAM, and patching among other things. I also have background in database administration. These positions have given me useful expertise and the capacity to properly spearhead projects. Further confirming my expertise was **the LTIMindtree Certified Cloud - IT Infrastructure, Cybersecurity Services Professional credential**. I also cleared an assessment on **Expert Java** compliant with competency criteria created by NASSCOM, the IT-ITeS Sector Skills Council.

My experiences significantly drive me to study data science at FAU Erlangen. Working closely with the tech team throughout my internship at LTIMindtree helped to guarantee seamless project development. This encounter sparked my love of data science since I saw first how insights derived from data may change corporate plans. Classes like Predictive Analytics, Machine Learning, and Data Mining especially fascinate me since they exactly match my job goals. The practical projects and case studies in this program will help me to apply my theoretical understanding to real-world situations, therefore arming me to lead data-driven initiatives in any company.

For various reasons, FAU Erlangen really appeals to me. Strong academic reputation of the university, good rating in many sources, guarantees me of the excellent caliber of instruction I will get. Modern facilities and a varied student body offer a rich surroundings for both intellectual and personal development. Though I have no personal ties at FAU Erlangen, I find the energetic community and chance to learn from eminent academics and researchers appealing. Erlangen is also a friendly city with many of cultural events and a strong local employment market that makes it perfect for both living and study.

Germany is a desirable place for my studies since its educational system is very well-known for stressing research and development. I wish to fully absorb the varied and inclusive German culture, which celebrates academic excellence and invention. Studying in Germany will improve not only my professional abilities but also help me develop personally. The opportunity to discover Germany's rich past and energetic way of life excites me especially.

After earning my Master's degree, I want to be employed in positions such **business intelligence specialist, data analyst, or data scientist**. These roles will let me apply the information and abilities acquired in the Data Science program to make wise strategic judgments in several sectors. Want to work where the employment market is strong and presents lots of chances for development in the field of data science, is another goal.

Ultimately, I am sure that FAU Erlangen's Master of Science in Data Science degree will provide me with the knowledge and abilities required to fulfill my career goals. My academic background, employment experience, and love of data analysis help me to be an excellent candidate for this program. The chance to study at your esteemed university excites me as well as to help the FAU academic community. I modestly ask that you give my application great thought.

I value that you are giving my application some thought.

Sincerely,
Uppendra Singh, Negi
