

Motivation Letter

I am an Indian citizen and go by **Uppendra Singh, Negi**. I'm writing to say how strongly the **Heidelberg University's Data and Computer Science programme** interests me. Having history in computer applications and a strong basis in cloud and infrastructure services, I am sure this program will enable me to reach both academic and professional objectives.

Graphic Era Hill University, India, where I finished my **Bachelor in Computer Applications**, with a **CGPA of 8.47—a German mark of 1.9**. Studying, I covered topics including Programming Concepts utilizing C Language, Data Structures and File Organization, Java Programming, Database Management System, Cryptography, and Computer Graphics. These classes greatly changed my analytical perspective. I have also become somewhat proficient in languages including Python, Java, C, and C++ programming. Having spent 15 years learning English has helped me to improve my communication abilities even more.

At **LTIMindtree Limited, India**, I am presently an **Engineer in Cloud & Infra Services**. Installation, configuration, and maintain M365, ITIL, WSUS, MECM, application packaging, OKTA IAM, and patching among other things. I also have background in database administration. These positions have given me useful expertise and the capacity to properly spearhead projects. Further confirming my expertise was **the LTIMindtree Certified Cloud - IT Infrastructure, Cybersecurity Services Professional credential**. I also cleared an assessment on **Expert Java** compliant with competency criteria created by NASSCOM, the IT-ITeS Sector Skills Council.

With Heidelberg University's extensive curriculum including machine learning, data mining, and big data analytics, the Data and Computer Science degree particularly appeals to me. Making data-driven decisions and addressing difficult data issues depend on these areas. The curriculum will provide me the means to apply quantitative methods to tackle real-world situations and evaluate intricate data. Developing advanced statistical tool, programming language like Python, and data interpretation skills excites me. These abilities will help me to provide wise suggestions and thoughts in several spheres, including finance, policy-making, and industry.

For various reasons, Heidelberg University really appeals to me. Ranked among the best institutions in the world, it offers a first-rate classroom. The varied and cosmopolitan student population of the university provides priceless cultural opportunities as well as a worldwide viewpoint on data concerns. The Heidelberg campus location, facilities, and faculty are first-rate; the chance to engage with academics in disciplines I know excites me. Perfect for my academic path is Heidelberg, a lovely city with rich cultural legacy and active student life.

Germany's great educational system and focus on research and invention have me wanting to study there. Since Germany boasts better educational quality, I want to remain here. I want to really experience the rich German diversity, culture, and acquire good exposure. Selecting Germany for my master's degree will afford me first-rate infrastructure as well as chances for professional growth and practical experience. Studying in Germany will enable me to encounter a culture renowned for its efficiency, correctness, and rich legacy, so helping me grow both personally and professionally.

Following graduation from this degree, I hope to be a data scientist for a big IT organization. I wish to help you produce strong, fact-based plans that propel long-term success. The knowledge and abilities acquired in this program will provide my working life a solid basis. I want to work so I may put my knowledge to use in a creative and exciting surroundings.

Ultimately, I think Heidelberg University's Data and Computer Science curriculum will equip me with the tools I need to shine academically and personally. The chance to add to and gain from the active intellectual community at your prestigious university excites me. I appreciate your weighing of my application and am looking forward your acceptance.

Sincerely,
Uppendra Singh, Negi
